- React(beginner)
- MySQL
- CMS (WordPress)
- Git Bash/GitHub

EDUCATION

Matriculation

Sindh Board, Karachi.2017

Intermediate

Government Degree Boys College Buffer Zone North Karachi. 2019

MY CREATIVE SKILLS:

I am a diploma holder in Advanced Software Engineering with a focus on web development. I've completed my Web Development course at Aptech Gulshan Center. Currently, I'm working on enhancing my skills in ReactJS as a beginner. I have a strong foundation in HTML, CSS, JavaScript, and version control using Git. I am proficient in Bootstrap and can design responsive websites with custom CSS. Additionally, I have worked on 2-3 WordPress websites, showcasing my ability to work with CMS platforms. Moving forward, I aim to focus more on WordPress development to create dynamic and user-friendly websites. Below in the work section, you'll find some examples of my work.

EXPERIENCE:

During my studies, I have worked on several web development projects. I developed a Todo List application and a Bubble Shooter game using HTML, CSS, and JavaScript, focusing on dynamic interfaces and interactive features. Additionally, I created 2 websites using WordPress, where I customized themes and integrated plugins to enhance functionality. I also designed 2 static websites with HTML, CSS, and JavaScript, focusing on responsive design and user experience.
